

MANY PERMITS

IF PRESENT RATE CONTINUES, LAST MONTH'S TOTAL WILL BE EXCEEDED

With the \$20,550 worth of building permits issued yesterday, the total for the first third of the month is \$172,140, and the largest amount called for by any permit was \$6000. If this rate should continue for the balance of the month, August's wonderful record of \$517,278 will be eclipsed. Just 52 of the 68 permits issued so far are for residences, several are for remodeling of or additions to old houses and the remainder, all but one, which calls for a \$300 office building, are for garages, some of which will be used as residences. Yesterday's permits were as follows:

H. H. Wheeler, 5 rooms, 826 Orange Grove Ave.	\$ 3,000
Fox-Woodsum Lumber Co., office building	300
Mrs. Sallie Campbell Braden, 5 rooms, 526 N. Kenwood.	5,000
Leonard C. Burton, 3 rooms, 1142 E. California Ave.	800
Louis J. Ohlman, garage at 463 Salem	200
Mrs. E. W. Richardson, 2 rooms and garage at 214 W. Laurel and same at 1506 S. Central Ave., 2 permits at \$1000 each.	2,000
D. C. Anderson, 5 rooms, 125 S. Pacific Ave.	4,300
I. S. Moberley, 3 rooms, 1011 S. San Fernando Road	1,300
L. J. Lamb, garage, 361 Oak	150
P. W. Landreth, 5 rooms and garage, 211 W. Eulalia	3,800
	\$20,550

Glen Eyrie O. E. S.

At the regular meeting of Glen Eyrie Chapter, Order of Eastern Star, in the Masonic Temple last evening, the largest class in its history was initiated, after the regular order of business had been attended to. The candidates were Edna May Peart, Ella Hough, Kate Cronkhite, Charles Cronkhite, Gertrude McMillan, Ella W. Richardson, Alida McGhee, Elizabeth Joseph, Jesse Joseph, Doris Ingledue. It was announced that the Matrons and Patrons of the Los Angeles Chapters are to be entertained by Glen Eyrie on the evening of September 24th.

Ask for Water

H. W. Frank, of 1558 Eagle Rock Road, appeared before the Board of Trustees of the city of Glendale last evening asking that a water main be extended to their residence and ranch grounds. He stated that at the time of the improvement of East Broadway the water pipes were removed and they have not been replaced since, and Mr. Frank informed the Board that the conditions had become serious. The question was referred to the City Manager and he made the reply that he knew no reason why water pipes should not be replaced, although he said the water pressure, until there is a new reservoir installed, will not be sufficient to allow good service.

REALTY BOARD

BANQUET HELD LAST NIGHT AT WHITE INN AND ORGANIZATION PERFECTED

The meeting and banquet of the Glendale Realty Board held at the White Inn last night to perfect their organization, developed great enthusiasm. Thirty-four firms were represented and the attendance considerably exceeded that number. Chas. B. Guthrie was elected permanent president and E. P. Hayward, secretary. A board of nine directors was chosen as follows: C. B. Guthrie, E. P. Hayward, H. L. Miller, Cameron Thom, Mrs. Mabel Tight, Neil Chandler, Arthur Campbell, Clem Moore and Roy D. King. All the necessary committees were appointed and the constitution and by-laws adopted.

The project of establishing, as a municipal enterprise, a permanent tent city to accommodate temporarily new families moving to the city that cannot get homes either by rental or purchase, was discussed approvingly by many of those present, it being stated that the city would furnish grounds and also, in conjunction with interested business men, funds for establishing the tent city. It was decided to hold weekly meetings for the present.

ROOMS FOR VISITORS

MEMBERS OF TUESDAY AFTERNOON CLUB PREPARING FOR TRACTOR SHOW GUESTS

The Tuesday Afternoon Club is going after the job of canvassing the city for accommodations for Tractor Show visitors with a vim that is bound to win, and the president of the Club, Mrs. C. E. Hutchinson, is very optimistic over the prospect. She says that yesterday 9 people called her by phone and proffered rooms, asking that their names and addresses be registered. Mrs. Douglas B. Bithis has been appointed secretary for this work and headquarters were selected today in the City Hall, and active work will begin Monday morning as it is expected that a full week will be required to thoroughly canvass the city. Meanwhile voluntary registrations of people who have rooms to spare will be heartily welcomed.

All the members of the club are earnestly enlisted in the work of making this part of the preparations most thorough and complete and their spirit and enthusiasm spell success.

TRUSTEES' MEETING

PROPERTY OWNERS ASK IMPROVEMENT OF ARDEN AVE. FROM CENTRAL TO PACIFIC

The Board assembled at 8:20 p. m. September 10, 1920, Trustees Mrs. Bartlett, C. H. Henry, Spencer Robinson, Hartley Shaw and Dwight Stephenson being present. Minutes of the regular meeting of September 2, 1920, were read and approved.

H. W. Frank reported to the Board that their water connections had been severed for some time and that they have no city water supply at the junction of Colorado street and Broadway. A motion of Trustee Stephenson was adopted directing that this situation be remedied by re-establishing the connection.

Mr. Ingledue presented a petition to the Board signed by a large number of citizens, voters, and taxpayers of the city protesting against the proposed modification of the present ordinance prohibiting the operation of pool halls within the city and in connection with the petition he addressed the Board on the subject. A number of speakers followed in support of the object of the petition, among the number being O. A. Lane, ex-chairman of the Board of Trustees who recalled the circumstances connected with the adoption of the ordinance when he was president of the Board. The petition was filed.

A communication was read from W. C. Thomas asking permission to erect a news stand next to the curb on the northeast corner of Broadway and Brand boulevard. On motion of Trustee Henry the permission was granted.

A communication was read from R. L. Kent with reference to a proposed spur track across San Fernando Road for the benefit of the Standard Oil Company, recommending a change in location. On motion of Trustee Henry the request was granted and the city attorney instructed to prepare the necessary ordinance, the expense to be borne by the Standard Oil Company.

A petition was presented signed by the Glendale Laundry Company and other property owners owning property fronting on Arden avenue, requesting that steps be taken for the improvement of Arden Ave. from Central Ave. to Pacific Ave. On motion, referred to the city engineer to prepare an estimate of the cost of the improvement and present the same at the next meeting of the Board.

An application was presented from W. A. Meredith for a permit to conduct jitney business, action deferred for one week. A letter was presented to the Board from the chairman of the Glendale Public Library Board requesting that the Trustees allow a levy of one and one-half (1½) mills for the Library Fund, instead of one (1) mill as proposed. The communication stated that the funds furnished for library purposes have hitherto been inadequate and not commensurate with the requirements of a city of the population and educational attainments of Glendale. It also contained a comparison of library work, expenditures, etc., between the city of Pomona and Glendale. In regard to this matter the clerk was instructed to send an invitation to the Library Board to be represented at the next meeting of the Board of Trustees by at least one of its members.

The following bids for supplying the city with automobiles were open-

CITIES CANNOT REGULATE SPEED

CALIFORNIA STATE LAW FIXING LIMIT IN CITIES MUST PREVAIL, SUPREME COURT HOLDS

(Special Service to Glendale Evening News)

SAN FRANCISCO, Sept. 11.—California cities cannot set a speed limit for automobiles by ordinance, the Supreme Court held in a ruling formally filed today. The ruling was in the case of Earle Daniels, of Eagle Rock, accused of driving faster than fifteen miles per hour in Pasadena. The court held that the city of Pasadena could not fix fifteen miles as a speed limit, and that the state law fixing 20 miles as the limit in cities must prevail.

SLUSH FUND HEARINGS END

INVESTIGATION OF GOVERNOR COX' CHARGES WILL NOT BE RESUMED UNTIL SEPT. 22

(Special Service to Glendale Evening News)

CHICAGO, Sept. 11.—The investigation of Governor Cox' charges of a huge Republican slush fund came to an end today when the Senate investigating committee adjourned until September 22, when hearings will be resumed in the east.

The Senate committee today definitely refused demands of various Republican leaders that Governor Cox personally be summoned to testify.

Senator Kenyon said E. H. Moore, Cox' personal representative, had testified that he had all the information available.

The final session today was devoted to testimony concerning the drive for \$500,000 in the Chicago district.

HARDING POINTS OUT DISCREPANCIES

DIFFERENCES IN FRENCH AND ENGLISH TEXTS OF THE LEAGUE COVENANT MIGHT INVOLVE US IN CONFLICT

(Special Service to Glendale Evening News)

MARION, O., Sept. 11.—Suggestions that America has been duped by "shocking discrepancies in the French and English text of articles in the Versailles treaty, purporting to safeguard the Monroe Doctrine," was made by Warren G. Harding today. These discrepancies might readily involve us in conflict, he said. He demanded that those advocating acceptance of the league covenant bring forth an explanation.

This new angle on the treaty issue was sprung in a double barreled broadside on the Wilson policies made by Harding today in an address to delegations of business men from Chicago, Michigan and Indiana. Harding quoted from the French text of Article No. 21 of the league covenant, arguing that it is a complete reversal of the English text. This difference, he said, might "very readily involve us in unhappy conflicts." English text says nothing in the covenant shall be deemed to affect the validity of understandings like the Monroe Doctrine. The French text says that understandings like the Monroe Doctrine might be considered as incompatible with any of the provisions of the covenant.

BREAK BETWEEN SALAZAR AND RODRIGUEZ

CALEXICO, Sept. 11.—An open break between Governor Salazar, of Lower California, and General Rodriguez, military commander at Mexicali, was feared today as the result of differences of opinion regarding closing of gambling concessions in Lower California. General Rodriguez has stationed guards at the "Owl," Mexicali's famous gambling center, after Governor Salazar permitted the place to reopen.

WORKERS TAKE OVER PLANTS

ROME, Italy, Sept. 11.—While negotiations between metal workers and manufacturers proceeded at Milan today, reports were received of further seizures of factories by workers. According to a Turin dispatch three of the largest rubber factories in Italy, including the Michelin Tire Co., were seized.

Large chemical factories have also been taken over by the workers. The labor federation has ordered the seizure of 200 additional factories, it was reported.

ed, read, and publicly declared: Ford Agency, Glendale:

(1) 1 Model "T" Touring Car equipped with electric lighting and starting system seven hundred ninety-five and 88-100 (\$795.88) dollars.

(2) 1 Model "T" Ford Roadster similarly equipped seven hundred sixty-five and 85-100 (\$765.85) dollars.

(3) 1 Model "TT" Ford Truck, pneumatic tires in front and solid tires in rear without electric lighting and starting system, seven hundred thirty-one and 65-100 (\$731.65) dollars.

M. H. Pehr Co. offering:

1 Tulsa 5-passenger Touring Car for sixteen hundred ninety-five (\$1695.00) dollars, less 10 per cent. Bids referred to the city manager.

The report of the treasurer was presented for the month of August and referred to the finance committee,

which committee later returned it for filing. The usual demands were presented and referred to the finance committee. Later the finance committee reported back the demands approved and on motion of Trustee Stephenson warrants were ordered to be issued in payment of same.

The city manager made a report on the bids referred to him at previous meeting for supplying the Public Service Department with poles recommending the acceptance of the bid of the Bentley-Schoeneman Lumber Company, and on motion it was ordered that the recommendation be approved and the contract awarded accordingly.

The city manager presented the budget for the fiscal year ending July 1, 1921, which was referred to the finance committee.

A communication was read from (Continued on Page 8)

MOTOR UP STATE

H. S. WEBB AND PARTY RETURN FROM AUTO TOUR TO SAN FRANCISCO

H. S. Webb, in company with his mother, Mrs. F. A. Webb, his sister, Mrs. Sawyer, and Miss Lorraine Mitchell returned last night from a delightful ten days' motor tour up the state. Taking the coast road north they spent the first night in San Luis Obispo, reaching Del Monte the next night. Three days were spent at the Del Monte Hotel. Mr. Webb enjoying three days of golf during the state championship games. All of the beautiful drives about Del Monte including Carmel and Pacific Grove were taken before the party proceeded to San Francisco.

Mr. Webb transacted business in San Francisco and all the sights of the northern city were taken in. On the return they crossed the ferry to Oakland and came home by way of Modesto, Fresno and Bakersfield. To their surprise they found the Valley delightfully cool.

Mr. Webb says he drove 1200 to 1500 miles on this trip without any motor or tire trouble of any kind. He considers this a wonderful demonstration of Buick efficiency.

As to business conditions, Fresno and Bakersfield are booming, he says, but he saw no city displaying the business activity or the real progress for a city of its size as Glendale is doing. San Francisco is not beginning to make the forward strides that Los Angeles is and this Mr. Webb attributes to the fact that the northern city is embarrassed by the labor troubles.

Y. M. C. A. Workers

The local committee of the Y. M. C. A. movement for boys in the Glendale district held a meeting last evening with Neil Locke, the new county secretary and Rex C. Kelly, the new local secretary, to plan the new year's work which is to be put on and carried out with old-time enthusiasm. It was decided to call a meeting for next Friday evening, when a dinner will be given at some central location, to be attended by all local committeemen, group leaders, and ministers of all the churches of Glendale, Burbank and Eagle Rock to map out a program.

Leap Year Party

A very delightful affair was the Leap Year party held at the home of Miss Inez Harrison, Sixth and Grand View on Friday evening by the girls of Miss Vera Sinclair's Sunday school class of the Glendale Presbyterian church. The entertainment was in charge of Miss Phyllis Baker and Miss Helen Engle and the evening was spent in a social good time of games, the leap year ideas prevailing, followed by dainty refreshments. Those enjoying this novel evening were the Misses Phyllis Baker, Inez Harrison, Helen Engle, Louise Hoyt, Hope Ireland, Martha Eilers, Margaret Fife, Margaret West, Marian Clark, Mildred Meeker, Mary Simpson, Vera Sinclair and Stella Bellue; Mrs. Marion Lennox; Messrs. Claire Staley, George Staley, Stephen Fairchild, Vivian Taylor, Alvin Brown, Edward Smith, Warren Meeker, Lloyd Culver, Earl Hammond, Bryant Burns, Raymond Evans, and the host and hostess, Mr. and Mrs. M. P. Harrison.

Casa Verdugo Lighting

The City of Glendale voted at last evening's meeting to bid on furnishing three street lights for Casa Verdugo. The bid submitted was \$2.50 per light per month, with a first cost of more than \$100 for installation.

Birthday Surprise

Miss Gertrude Hawkins was given a pleasant surprise last evening, in celebration of her 18th birthday, at the family home, 420 East Harvard. Only her parents, Joe Hawkins and wife, and her two brothers, Lieut. Walter and Norman, participated in the surprise, but they had a regular dinner with a fancy birthday cake to grace the center of the table.

Ferry Gets Contract

Peter L. Ferry, Glendale contractor, has been awarded the contract for a big job of paving in Eagle Rock. Bids were opened at Tuesday evening's meeting of the Board of Trustees for paving North Ellis and North Delaware avenues in that city and Mr. Ferry's bid was lowest. The total cost of the work is to be \$7053.

PROTEST POOLROOM

MANY CITIZENS PRESENT AT TRUSTEES' MEETING TO OPPOSE ORDINANCE REPEAL

The Chamber Room of the Board of Trustees of the City of Glendale was a lively place for an hour last evening. It had been announced in the Glendale Evening News that an ordinance repealing the anti-poolroom and billiard hall ordinance would come up for first reading at last evening's meeting. So about 50 men and women who are against having a public poolroom in Glendale were present, and C. W. Ingledue presented a petition of 250 signers to the Board, asking that the ordinance not be repealed. Mr. Ingledue, in making his address, thanked the citizens who had signed the petition asking that a permit for conducting a poolroom be granted in Glendale, and he also said the gentlemen who had made application for this poolroom deserved the thanks of the citizens of Glendale for the reason that all of these people had started the agitation of a question that should have been attended to in another form several years ago. Mr. Ingledue said that he was emphatically opposed to the public poolroom but he did favor the citizens getting together and arranging some place for proper recreation and games for the young men of the city.

Other speakers on this subject were Elder Munson, Mr. Ford, Rev. Crist, A. B. Smart, C. E. Kimlin and C. W. Kinnan.

Shropshire Family

Miss Birdie Shropshire arrived in Cincinnati, Wednesday, and expects to take up her work as cashier in the offices of the Pacific Mutual Life on Monday. She was furnished with transportation to the Ohio city and her expenses for the first five days of her stay paid, which action was taken of their own free will by the company officials, so anxious were they to secure Miss Shropshire's services. With Miss Birdie's location in Cincinnati the five members of the family are now in five different cities. The mother is in Ontario, Miss Lillian in Glendale, Charles in Cairo, Ill. and Miss Grace in Lawrence, Kan., where she says she will stay until after November 2 so she can vote for her aunt, who is running for a county office.

Tuesday Afternoon Club

The informal reception to be given next Tuesday, Sept. 14th, from 2 to 5 p. m. at the home of Mrs. E. W. Kinney, 123 West Elk avenue, for the Tuesday Afternoon Club will have as honorees Mrs. E. H. Willisford, the retiring president; Mrs. C. E. Hutchinson, the new president, and all the new members of the Club. Every member has a cordial invitation and is expected to be there. Mrs. Spencer Robinson and Mrs. Albert Leighton will entertain the guests during the afternoon with a group of songs and refreshments will be served. The other members of the executive board will assist their coadjutor, Mrs. Kinney, in entertaining. They are Mesdames Chas. Temple, J. R. White, C. E. Norton, Walter Stamps, W. E. Evans, Mabel Franklin Ocker and Mabel Rudy.

BEAUTIFUL LAWN

GIANT PALMS ADD SHADY CHARM TO FRONT YARD OF HYATT PLACE

One of the most beautiful front lawns in Glendale is that at the Wm. Hyatt place, 552 West Broadway, and it is made so by two giant date palms whose long drooping leaves meet and form an archway that furnishes a cool shade all the day long. Rustic seats placed on the thick lawn grass make it an ideal lounging place on a hot summer day and the thick hedge that stretches along the front of the yard screens the loungers from the gaze of passersby. These two palms are sixteen years old. They were tiny plants, just set out, when Mr. and Mrs. Hyatt, who had been living in Los Angeles for a year since moving out from Ohio, came to Glendale and bought the property, which consisted of the present buildings and five acres of ground. They have made of it in those years a very productive and profitable place, with many fine varieties of grapes and tree fruits. The grapes, especially, have been a highly paying proposition, so great has been the demand for them.

AUTOMOBILE SECTION

BUICK

POWER, sturdiness and dependability have been qualities of Buick Valve-in-Head Motor Cars from the time that the name Buick first became linked with the automobile industry. Today, in equal measure as in the past, the Buick Motor Company is dedicated to a continuance of the policy that has caused the Buick car to occupy the position it holds in the public mind.

To all that the name Buick has meant in twenty years of automobile history, the new Nineteen Twenty One Buick brings that grace of movement, that refinement of every line and feature, that sheer beauty of design which inspire a pride of ownership in a fine motor car.

The new Buick line comprises seven models, one for every possible demand. Each has the famed Buick Valve-in-Head Motor, as rugged and powerful as ever, yet refined into a mechanism of unusual quietness.

The improved radiator, hood and cowl lines give a finished touch of trimness to the body, yet without any sacrifice of Buick individuality.

A more resilient spring suspension gives these new Buick models a riding comfort as delightful as their exterior appearance is pleasing.

Each of these seven models has its own value particularly adapted to a distinct class of service. All possess those inherent Buick qualities that assure the owner the uninterrupted use of his investment.

BIG TIRE PLANT

GOODYEAR FACTORY IN OPERATION EMPLOYING 2500 ON WAY TO PRODUCTION CAPACITY

After ten months in the making and ninety days of actual operation the big plant of the Goodyear Tire & Rubber Company of California at Los Angeles is now rapidly swinging into its stride and is well on its way toward production capacity.

The employees' roster including both factory and general offices, shows that 2500 Goodyearites are swinging through the gates daily to perform their various duties in connection with tire production for the Western states.

Tire and tube production is mounting as rapidly as Western workmen can be trained in their prescribed duties by the experts brought out from the parent factory at Akron, Ohio, and has now reached well over 1500 tires and 2500 tubes daily—the largest output of any tire factory west of the great tire plants at Akron. Officials state that by the first of January, 1921, the Western plant will be turning out 3000 tires daily with a tube output of 5000.

The plant is working continuously twenty-four hours daily, six days each week, in three eight-hour shifts. No Sunday work is done except such as is absolutely necessary to keep the plant in shape for the shift that begins work Monday morning. This is in keeping with the Goodyear policy, for the company has long held that workmen to be efficient should have one day of rest out of seven.

The construction men are rapidly completing their tasks and making way for the skilled tire makers. The employment department is taking on men daily, building up a strong personnel of workmen to the end that maximum production may be reached early.

In a section of the city which was formerly dark and dismal at night, the brilliantly lighted factory, with its myriads of electric lights guiding the workmen in their night tasks, presents a wonderful spectacle and attracts hundreds of motorists in that direction each evening to view the magnificent sight.

The extension of street car lines from the site of the old Ascot grandstand to the main entrance of the factory, a mile distant, provides ample car service for all employees, so that easy access to the plant is possible from any portion of the city.

The section now occupied by the big plant has undergone a transformation unequalled by any similar area in the West since the war. In less than fourteen months a cabbage patch worked by a half dozen Japs has become the support of an army of 2500 workers and the source of tire supply for many thousands of automobile users in twelve Western states and in the foreign countries across the Pacific.

The demand for product is still greater than the present capacity of the Western factory, but officials are hopeful of catching up with this demand as rapidly as a sufficient working force can be trained to produce Western tires. Despite this handicap, however, the total amount of business for 1920 is running well ahead of last year.

California Motor Laws

(By United Press)

SAN FRANCISCO, Sept. 11. In anticipation of more action on legislation governing the use of motor cars at the January session of the California legislature, the legislative committee of the State Automobile Association is already busy, analyzing conditions and considering proposals. Much thought also is being given to various improvements which the association itself may desire to see incorporated in the state motor vehicle act.

THE 1921 BUICK

TANNER & HALL ARE ANNOUNCING NEW MODEL CAR THIS WEEK

Tanner & Hall, Ltd., local Buick distributors, are announcing the new 1921 Buick which comprises seven models, one for every possible demand. "The new models contain the famous Buick valve-in-head motors as rugged and powerful as ever yet refined into a mechanism of unusual quietness," said Mr. Tanner. "The improved radiator, hood and cowl lines give a finished touch of trimness to the body without sacrificing Buick individuality."

"Each of the seven models is particularly adapted to a distinct class of service."

A number of orders have already gone in to the factory from the Glendale agency for 1921 Buicks. Charles W. Anderson of Burbank is a Buick enthusiast who has placed his order for one of these new cars. Mr. Anderson has just returned from a 900-mile jaunt in the northern part of the state. "I averaged 20 miles an hour on a gallon of gas," said Mr. Anderson. "I'm strong for the Buick and must have a new one. I have placed my order for one although the price has not yet been announced."

Side Crops

In the maintenance of a large cotton plantation it is necessary to raise quite a diversity of crops such as alfalfa, sudan grass, milo maize, barley, feterita, sorghum, fruits, etc., to help supply the food wants of workmen and livestock on the plantation. This does not detract from the number of acres planted to the main crop, for as a rule, every such tract includes a section of land not adapted to cotton, which can be made to pay good returns when planted to some auxiliary crop. By employing a system of crop rotation, often such land can be brought to a state of preparation that will warrant planting to the main crop. On the extensive plantations of the Goodyear Tire & Rubber Company, near Phoenix, Ariz., 11,000 acres are given over to the culture of these side crops.

For some life will never be what it should until the price of an ice cream soda gets back to a nickel.

Industrial Cafeteria

What is declared to be the most efficient and most modern industrial plant cafeteria system in operation in the country has just been opened at the new \$20,000,000 factory of the Studebaker Corporation in South Bend, Ind. With a capacity for feeding 5000 employees every 15 minutes, it rivals the world-famous American Army system for speed, and at the same time offers service and an assortment of delicacies.

In addition to the main cafeteria, which accommodates 1500 persons, there will be 10 branch cafeterias in the various plant buildings, each with a capacity of approximately 350 employees.

A special feature of efficiency is the method of distributing food ready to serve in vacuum containers from the main cafeteria kitchens, where it is prepared, to the branches throughout the factory. This plan makes it unnecessary for all the

workers to congest one dining hall, and saves their time by placing a restaurant near where they work.

Noise in the driving bevels of the rear axle is commonly caused by poor adjustment, allowing too little or too much backlash. Bevel gears in use today have a method of adjusting the depth of the mesh, obtained either by moving the whole differential unit sideways or by movement of the driving pinion.

When the crankshaft turns over with a steady and unusual resistance, it probably means that there is a deposit of gummy substance under the piston rings. This may be removed by putting an ounce or two of kerosene through the petcock of one cylinder at a time and running the engine with the spark plug wire disconnected to that cylinder for a few minutes.

TRADE MARK

Tractor

Don't fail to visit the Fordson tractor exhibit at the National Tractor Show, to be held September 20 to 26, at Verdugo Woodlands in Glendale.

Don't fail to visit the Fordson tractor exhibit at the National Tractor Show, to be held September 20 to 26, at Verdugo Woodlands in Glendale.

When Henry Ford set about building the Fordson tractor he had a thorough understanding of just what it should be and what it should do. His early life on the farm gave him a deep insight into the daily life of the farmer; his mechanical genius saw the type of tractor needed. He began work on a farm tractor thirty-five years ago, and for more than twelve years he experimented over more than 7000 acres of land in different kinds of soil, with different crops.

So he built the Fordson. It is so simple that a schoolboy can operate it. It is low in first cost. It is lowest in operating cost and Fordson parts and Fordson service are always to be had promptly from the dealer.

The Fordson is a profitable investment. It can be used every working day in the year. It is an inexpensive power plant that will lighten your farm work. It has proven its worth on more than one hundred thousand farms not only in operating implements in the fields, but in belt and pulley work. And it doesn't eat when idle.

Don't delay ordering your Fordson tractor. The demand is greater than the supply.

THE FORDSON

INSPIRES THE OLD-TIME FARMER TO SING ITS PRAISES IN RHYME

and prevent loss formerly incurred from piling it in fields and inadequate warehouses. Moreover, it has proved of great assistance to the railroads, permitting expeditious loading of cars and relieving the roads of carrying wheat on short hauls.

It is evident from the reports that the truck came to the grain growers just in the nick of time, enabling them to handle the bumper crop in a way which could never have been equaled with horse and wagon. The truck stepped into the breach and has proved such an efficient helper that it has won a life-long job.

Automobile brakes for rear wheels are divided into three general classes—internal expanding band, internal expanding shoe and external contracting band. When brakes are applied the first mentioned brake band of some thin metal expands against the inside of a brake drum; the second has heavier "shoes," which are operated by a cam, expanding against the drum; the third brake is a drum with a thin band contracting against it on the outside. Both bands and shoe have a friction lining of some asbestos composition, which is more heat and wear resisting than metal, although some brakes of the expanding shoe type are made with no lining. Another type known as the transmission brake is located on the main driving shaft, near the transmission. It is similarly constructed and usually used for emergency, operating by a hand lever.

There is always more talk going to a fishing hole than coming back home.

Nowdays we see the Fordson doing duty like charm; it performed an ample portion of the work about the farm. Oh, we see the farmer sitting on its springs painted black. And the wondrous gait he's hitting never causes it to slack. Horses look to him like fakirs and for mules he'd give no mon. For it plows a dozen acres where a team would fall at one. When I found I could afford one with a two-plow rig and all, I vowed I'd buy a Fordson for my plowing in the fall. For as I viewed this mighty tractor, olden times returned to me. When I was a tragic actor in the scenes of husbandry. The old mule was my allotment, one old mule of dirty gray. And she knew what a swat meant, for I walloped her all day; with a club her ribs I polished, hoping thus some speed to gain; but all schedules were abolished by that mule, and blows were vain. All my better years were squandered in this slow and futile way; up and down the fields I wandered slow as goose grease through the day. And the mule at last, I sacked her and took up this fountain pen, sore because the Fordson Tractor had not been invented then.

The average country constable probably does not see any need in having other law-enforcement officers.

THE TRUCK

TAKING ITS PLACE AS A TREMENDOUS FACTOR IN SOLVING TRANSPORTATION PROBLEM

Seeking other fields to conquer after displacing Old Dobbin on the city's pavements, motor trucks are now chugging toward dominance on the rural highways. Their latest achievement is in giving America's farmers a much needed lift in transporting the bumper grain crop of 1920.

Almost overnight, it seems, the truck has become a tremendous factor in the movement of the nation's food supply. A few years ago, only a few farmers recognized its full possibilities but today it can be seen from one end of the grain belt to the other carrying full loads of golden grain onward toward their destination.

This fast-growing importance of the motor truck to the grain grower is shown by a survey just completed by the Travel and Transport Bureau of the B. F. Goodrich Rubber Company. Questionnaires were sent out to nearly 2,000 country elevators by the bureau and the answers prove the truck's true position in the grain fields.

Those questionnaire answers which gave percentage comparisons of grain receipts by horse and wagon as compared with motor truck grain haulage showed that 26 per cent of the grain is being received at the elevators by truck. In other words, the truck is carrying one-fourth of the entire grain crop of many sections of the mid-west, a truly remarkable fact when it is considered that just a few years ago the horse and wagon had the field to themselves.

The territory covered by the questionnaires included Oklahoma, Arkansas, Missouri, Kansas, Montana, Idaho, Iowa, Nebraska, Illinois, Wisconsin, Minnesota, and the Dakotas. Answers were received from a representative number of elevators in each state.

According to the survey, farmers in Nebraska, Minnesota, and South Dakota are employing motor truck

transportation on a greater scale than in other sections of the grain belt. In these states, practically all elevators are being equipped with automatic scales and dumps so that the maximum service can be obtained from the trucks.

A tenor of the replies received indicated that the farmers, and elevator men as well, are becoming enthusiastic truck advocates and see a great future for them throughout the grain belt.

"At the present time," said Ely Salyard & Company, Minneapolis, "twenty-five per cent of the wheat in North and South Dakota is hauled by trucks. There is one truck for every 30 farmers. The truck system will increase 25 per cent this year alone and in three years farmers will be marketing all their grain and live stock via the truck system."

The Central Granaries Company, of Lincoln, Neb., which operates about 70 stations in Nebraska and Kansas, said that 50 per cent of the wheat is being delivered by truck in its territory.

"The truck certainly is a substantial help in bringing wheat to our elevators," the company said, "as they can haul and deliver it much faster. They are proving so speedy that with the car situation as tight as it is now we have to hold the trucks back."

"In Western Nebraska," says the Crowell Lumber & Grain Company, Omaha, "where grain is hauled long distances, nearly all of it is hauled by trucks. Some elevators claim they do not receive a single load during the day by wagon. With the new facilities that the truck dump is furnishing it is only a question of a short time until practically all farmers will be using trucks to deliver their grain."

The same enthusiastic idea about trucks is held by elevator men in all sections of the grain belt, even where failure of crops in past years has prevented farmers from investing heavily in trucks as yet.

The service which trucks have rendered wherever used has been threefold. It has saved valuable time for the grain growers at a season when every hour is precious. It has enabled him to get rid of his crop

"Exide"

Personals

Mrs. G. B. Goltman of Los Angeles, was the guest of her sister, Mrs. C. H. Bott, in Glendale Friday, and transacted business while here.

New residences soon to be occupied are those of C. W. Barstow at 710 North Pacific avenue, and H. M. Sawyer at 432 North Jackson.

W. S. Hartley of 555 Oak street is at work again after being forced to lay off for two months on account of a dislocated right thumb.

Miss Mildred Lyon of 214 North Louise is able to be out again after being laid up for several days with a sprained ankle.

Mrs. J. Cooksey and Mrs. H. P. MacMullin have returned from their summer vacation and are preparing to open their studio again.

C. W. Ingledue and wife will start Monday for Lima, Ohio, the old home they left ten years ago to come to the west coast. They will be gone 30 days.

Mary Alice Ferry, daughter of Mr. and Mrs. Peter L. Ferry of 614 East Acacia, who finished her grammar school course last year, is now a student at Ramona Convent.

C. E. Hutchinson and wife of 246 North Orange, returned home last evening from a week's rest at Camp Baldy. They made the trip in their machine.

Mrs. William Weger of 610 Orange Grove avenue, underwent a major operation at the Glendale Sanitarium Hospital last Wednesday and came through very nicely. She is now recovering rapidly.

Mrs. W. W. Knight of 325 Pasadena avenue, South Pasadena, lost a purse containing a valuable lavaliere and some money while motoring through Glendale on Colorado street Monday.

Mr. and Mrs. Wm. A. Davidson of 522 West Broadway motored to Pomona and Claremont Wednesday and visited relatives in the two cities that day and Thursday.

Letters were received yesterday from J. P. Lampert and wife, dated at Aurora, Ill., stating that they would leave there for Chicago next Tuesday and will go thence to Omaha, Neb., and proceed on home at once.

Miss Cora Kaiser and Mrs. Frank Howe of Los Angeles spent yesterday as guests of Mr. and Mrs. A. C. Schrader of 1224 Dorothy Drive. Miss Kaiser is a cousin of Mr. Schrader. She leaves Monday for Columbus, Ohio, to visit her old home.

E. E. Harwood of this city, for several years connected with Glendale schools as principal of the Ceritos Avenue School and later head of the manual training department of the city schools, took up his work Tuesday as superintendent of the Eagle Rock schools. Mr. Harwood will have supervision of three schools with an enrollment totaling 400.

Mrs. Charles A. Stockbridge and son Edward of 231 North Adams street returned home Monday night from a week-end stay in Santa Monica. While there they met Mrs. Louise Rockwood Wardner, aunt of Dr. Geo. Wardner of Portland, Oregon, who, with his family, have been dear friends of theirs for years.

Walter Sauter, who was united in marriage with Miss Meta Stone of Hollywood, has returned with his bride from their short honeymoon trip and they are now keeping house at 132 Geneva street. Walter is working with his brother, William, in the manufacture of macaroons and cookies.

A meeting was held Friday afternoon at the Congregational Church of Eagle Rock when the County W. C. T. U. President, Mrs. Marie M. Yeoman, assisted by the preliminary work of Mrs. Hayes, County Organizer, organized a fine W. C. T. U. of thirty-six members with a full corps of officers.

Mr. and Mrs. Frank Hall and daughter Elizabeth, who bought the A. M. Hunt place at 1201 Viola Ave., have moved here from Owensmouth to occupy it. They lived at Ventura for a number of years but like Glendale best of all as a place of residence. Mrs. Hall informed the Evening News.

Frank M. Ream, who has been head meat-cutter at the Glendale Market for the past two years, has bought a market on Moneta avenue, Los Angeles, near the Goodyear plant, and will take charge of his new business on Monday. Mr. Ream has sold his house at 145 South Pacific avenue to Miss Sarah Thomas, but will not give possession until he can find a home near his place of business.

Mrs. Dora Gibson, head of the Music Department of the High School, informs the Evening News that a free entertainment will be given some time this month in the H. S. auditorium by Miss Olga Steeb, using an Ampico. Mrs. Gibson said, also, that several graduates of her department who took last year's music course in U. S. C. were enabled to enter the second year there because of credits earned in the home school.

CONTINUING

In my statement last week I was able to give only an epitome of the fine proposition I presented therein. When you know it all it really seems too good to be true.

The "Bank" I referred to has cash assets of more than \$120,000,000.00, with a large surplus. The provisions for contingencies in case you are unable to pay the "interest," as outlined, are so liberal as to be almost unbelievable. For instance, in case you cannot meet the interest as usual you can have the full amount of protection extended for a number of years without paying anything more; or can have the \$10,000 reduced to a portion of that amount in full ratio for the time you have paid; or you can close the contract for a cash value; or can borrow its cash value and continue the contract.

Would you have such fairness shown you in any other business proposition on earth? I leave the answer to you.

W. B. Kirk

Protector of Homes
For Over 12 Years a Resident of Glendale

Mrs. Sarah Hopkins of Long Beach is in Glendale today visiting her brother, C. W. Casselman of 451 West Elk avenue, and looking at property with a view of buying a home here for herself and two sisters.

The residence property at 429 West Elk avenue has been sold by Mrs. Emilie Dabney to Mrs. Lizzie B. Smedley, through Christie & Brown, who have also sold several lots recently through ads in The Evening News.

Moving a large house along the streets of Glendale is getting to be quite a problem, owing to the congestion of traffic and the multiplicity of wires and cables that must be raised to allow the passage of the building beneath them. On streets like Broadway and Brand, in the congested districts, the ordinance requires that such moving be done between midnight and dawn in order that all may be clear for the traffic of the day.

NOTICE

Our Cleaning and Pressing Department is now under the direction of Mr. Gelmore.

YOU SAVE TIME AND MONEY HERE

THE BROADWAY TAILORS

118 E. Broadway

Charles Baines who runs a shoe repair shop at 312 East Broadway, got a steel splinter in his eye yesterday while working and is having quite a serious time with it.

Mrs. W. D. Campbell and daughter, Nettie, who came here a month ago from Clarion, Pa., and bought of Lee Thomas his residence property at 316 East Dryden, have moved in. Miss Nettie is an accomplished pianist.

Mrs. Frank M. Head, of Ardmore, Okla., who, with her two little daughters, Nancy Blake and Mary Wirt, has been spending the summer with her parents, Mr. and Mrs. J. H. Franklin of 246 North Orange, started for home this morning.

W. M. Standley and family of Carrollton, Mo., came to Glendale about ten days ago and have rented the home at 701 East Raleigh. The Standleys are relatives of Dennis Smart of 505 North Jackson street and visited Glendale about twelve years ago. If they continue to be as well impressed with Glendale as at present they will purchase a home and remain here.

The officers of the local W. C. T. U., including the County President, Mrs. Marie M. Yeomans, were entertained Friday noon at a delightful luncheon in the beautiful home of Mrs. Effie Weien, Grand View avenue, Eagle Rock. Covers were laid for Mrs. Marie Yeoman, Mrs. Ruby Smart, Mrs. Jennie Mottern, Mrs. Louise Morton, Mrs. Pierson Hanning, Mrs. O. S. Palmer and Mrs. Katherine Rowe.

Mrs. W. D. Root, who has been on an extended trip to the Eastern Coast and south of the Florida line for the past seven weeks, has returned to her home at 110 Olive street, Glendale. Mrs. Root has visited over 40 courts and institutions and traveled over 9000 miles. She interviewed all of the Juvenile Courts of the larger cities, Savannah, Ga., Baltimore, Md., Philadelphia, Pa., Washington, D. C., New York, Chicago and Denver and found that the Los Angeles Juvenile Court ranks high in comparison with these similar institutions.

Glendale friends of Helen Holmes (Mrs. J. P. MacGowan) who lived in this city for several years and but recently moved to Hollywood, will be interested in learning that she is just now involved in rather a humorous bit of litigation, her manager demanding \$30,000 damages because, as he avers, she refused to ride wild broncos, plunge full-clothed into raging streams and defy drenching thunderstorms in order that realistic scenes be filmed. She claims, on the other hand, that the manager owes her \$3000 and that she is justified in refusing to continue work until that is paid.

Still Need Teachers

The High School is still short a few teachers and diligent search is being made to secure them. Miss W. Hobush has been elected to take the advanced sewing and millinery department, which the late Mrs. Elizabeth Dement had so successfully presided over for several years, thus releasing Miss Holloway, who had very kindly undertaken it until a successor could be found. She will now go to her school at Phoenix, Arizona. The enrollment for the first week is approximately 800, as compared with 675 the first week last year. Fully 250 more are expected, bringing the enrollment above 1000.

Runaway Boys

The following message was received last evening at 8 o'clock by Mr. Brewster, night man at police headquarters, from the San Bernardino police chief: "We are holding two boys here from your city, Frances Moffatt of 410 Hawthorne and Wm. Teasley of 1001 Mariposa. What shall we do with them? They ran away from home. Had guns, pistols and bowie knives on them." The boys will be returned to their homes.

League Lecture

According to a lady living on North Central avenue, who heard it, Edward Sparrow Jerome's lecture on "The League of Nations" Thursday evening at Central Avenue schoolhouse was wonderfully instructive and in view of this fact he has been requested to lecture again next week before leaving for the East. Announcement of the date will be made later in the Evening News.

Old J. Barleycorn may congratulate himself that he took the count on the eighteenth amendment, without waiting for the nineteenth.

NOTICE OF DISSOLUTION OF PARTNERSHIP

Notice is hereby given that the undersigned heretofore engaged in the dry goods business at 2608 North Broadway, Los Angeles under the firm name of Goltman and Osgood have this day by mutual consent dissolved partnership.

Miss A. G. Goltman will continue the business under the same firm name.

Dated September 1, 1920.
MISS A. G. GOLTMAN.
913 MRS. A. G. GOLTMAN.

Soap and Water Sweetness

Soap and water sweetness is a religion in our laundry.

Floors, washers, tables, racks—everything with which your clothes or the people who handle them come in contact—are scrubbed frequently with fresh, boiling, bubbling soap suds.

That's the secret of the radiant cleanness you will find in our laundry—that and the fact that our work rooms are open to the fresh air and sunlight. That's one of the reasons for the fragrant purity of the clothes we send home to you.

Doesn't this old-fashioned gospel of soap and water cleanness make its appeal to you?

A phone call and one of our drivers is at your door for the family bundle. Why not today?

AUTOMOBILE SECTION

PUBLISHED EVERY SATURDAY

GRACE OF NASH

THE BEAUTY OF THE CAR
MAKES A BIG HIT, SAYS
GLENDALE DEALER

When Thomas G. Widmeyer, agent for Glendale and vicinity for the Nash Six and the Nash Truck, was asked why the Nash Six had won such esteem among automobile owners in such a comparatively short time he said people are instinctively drawn to the car by its grace of outline. The Nash Six looks like one of the highest-priced cars. Then when the prospective purchaser of a motor car makes further investigation he finds out that the construction and performance of the car are consistent with its appearance.

"While the beauty of the car counts for a good deal," said Mr.

Widmeyer, "the valve-in-head motor of the Nash Six is the outstanding feature of this car which sets it apart from other cars in its class and creates such an insistent demand for it."

To time the valves one method is to mesh the timing gears with the marked tooth of one gear exactly in line with that of the corresponding tooth of the gear it engages. Another way is by using the flywheel, which should be marked for top dead center of each piston's stroke, also the position when each valve opens and closes. As an example, on a four-cylinder engine, the inlet valve opens at five degrees past top center, and closes at 40 degrees past bottom center. The exhaust valve opens at 40 degrees before bottom center and closes at seven degrees past top center.

Civilization

Some sociologists are lamenting the appearance of some signs of what they fear to be a reversion among the Indian tribes. They think they can find evidence of what they call commercialism entering into financial exploitations accompanying the annual dance feast of the Bannock Indians in Idaho. The pole dance of the Bannocks has in it some striking and peculiar features which draw as spectators hundreds of whites, and this year automobile tourists have traveled long distances to be present as spectators. And this year, for the first time, the Bannocks, building a high fence around an enclosure in which the dance has been held, have charged an admission fee of half a dollar.

The large attendance on a recent day when the annual sun dance was held is felt to have been the inspiration of the commercialism of collecting an admission fee. In addition, it is said the Indians have this year charged much higher prices than ever before for the trinkets usually sold at the annual assemblages, and a large part of the fear is that our brother in red has acquired the habit of profiteering, which is also lamented as an evidence that our national wards are retrograding away from civilization.

It might be answered that the Indian, more civilized now than ever before, has been caught in that "vicious circle" of high prices which is a present outgrowth of civilization, so far that he now finds it impossible to stage his shows free, or sell his trinkets at former prices. If profiteering is an evidence of reversion, the process is actively at work in so many places that socialists can find abundant evidences of it. If the Indians are reverting from civilized standards, they are not going alone. But against this evidence of some Indians acceptance of lower standards than once were theirs, we can set the refusal of the Chickasaws to participate in the burning of a negro at a stake at a town in their old tribal lands a few years ago. Their patriarch, Uncle Bob Love, in declining an invitation, said: "Our forefathers burned people at stakes, but they

Why The Insistent Demand For

THE NASH SIX?

First:—The beautiful lines of the Nash Six attract the prospective purchaser of an automobile and further investigation on his part reveals the fact that the excellence of the car is not confined to its beauty of outline alone.

Second:—He finds that the Nash Six Valve-in-Head motor is the latest word in motor construction and motor perfection.

Third:—He learns that the accessibility of all working and moving parts and the extreme power represents advanced engineering.

Fourth:—He learns that the natural position of all controls makes the car easy to drive.

Fifth:—He learns that the long Nash springs, the broad, roomy seats, and the balanced construction make the Nash Six unusually comfortable to ride in.

were not civilized. We are." The case of the noble red man is not nearly as hopeless as his exploitation of people, in a financial way, would indicate to alarmed sociologists.

Trees Furnish Cloth

In the West Indies dresses are often worn made from the natural lacelike cloth which grows upon trees. The tree from which the lace is gathered has a curiously light hollow trunk something like bamboo. A long, smooth section is cut and soaked in water until the bark is softened. The lacelike cloth is closely packed together, forming the shell of the tree. When carefully pulled apart a lacelike fiber is found which is surprisingly tough and durable. By placing several thicknesses together a comparatively thick cloth is formed. These pieces are sewn together like any ordinary cloth and made into dresses. The lace is light yellow in color naturally, but often dyed with the bright colors so popular in the tropics.—Boys' Life.

Wise Boss

Employer (to clerk): If that bore, Smithers, comes in, tell him I'm out—and don't be working or he'll know you're lying.—Boston Transcript.

The cause of vibrating in speedometer indicators may be loose unions at either end of the driving shaft, fiber gears not meshing properly, too sharp a bend in the shaft or lack of lubricant. The latter is the chief cause of noise in the speedometer drive. When the speedometer does not indicate look for loose connection, broken shaft links, stripped gears or gears not engaged.

A great deal of road work in addition to smoothing the paved boulevards is being done by the city in preparation for the winter rains. Dirt streets are being scraped and graded so that the crowns in the center will shed the surplus rainfall quickly.

Pancho Villa has announced, "I return to the plow!" Found a bandit's life too harrowing, eh, what?

Another Rule

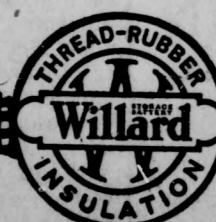

And the best one of all, is the good old Golden Rule. You'll say after you've been here that we know how to treat you and your battery on a Golden Rule basis.

If you need a new battery, be sure it has Threaded Rubber Insulation, the kind selected by 136 manufacturers of cars and trucks.

The Gardner Light Four

"It Speaks for Itself"

The Gardner Light Four has a special attraction for the experienced motorist. The man who knows what to expect from a thoroughly satisfactory automobile will find in the Gardner a conspicuous absence of the undesirable features which he may have encountered in previous purchases.

The reason for this is that the Gardner has behind it nearly fifty years of successful manufacturing experience. Such a great part of this time has been devoted to motor car construction that anything but perfection in a Gardner product would be unpardonable.

Knowing conditions in the automobile industry as he does, the head of the Gardner organization placed his name on a car which was sure to win instant recognition as superior. He presents the attainment of his ideal in the Gardner Light Four.

She—"I wonder why men lie so."
He—"Because women are so blameworthy."

America's Name

That is a fine suggestion which is made by Dr. John H. Finley, the New York state commissioner of education, that the printers of America should purchase and preserve the house in which colloquially but very literally speaking "America was first put on the map."

It is the ancient house in the village of St. Die, in France, in which Martin Waldseemüller—whom we know best as Illacomilus—in April, 1507, published the first map of the world that bore the name "America," and with it also that little Latin book in which it was first proposed that the continents of the western hemisphere should be thus named. "The fourth continent of the world," he wrote, "which, since Americus discovered it, may fittingly be called America, or American Land." And again in another chapter: "I do not see why anyone can lawfully object to its being called America or the Land of Americus, after the man of genius who by his sagacity discovered it."

Of course, we may debate until doomsday the question whether Americus really did visit Panama with Ojeda in 1499, and if he was the first of all Europeans to set foot upon the "terra firma" of the American continent. That does not affect the memorable fact that it was in that little house at St. Die, among the Voges, that the name of America was bestowed upon this western world. Surely America might well acquire and cherish the place in which she received her name.—Harvey's Weekly.

Sugar Prices

Sugar at 10 or 11 cents a pound before New Year's is predicted by a Chicago committee that has been investigating the recent "aviation" of prices. What went up so spectacularly is evidently coming down on the heads of the aviators themselves.

The crisis was reached when the federal reserve banks, scenting the profiteer in a price of 31 cents a pound, began calling loans that had been made on hoards of sugar. Then it appeared that our crop of sugar beets is 30 to 40 per cent larger than ever before, while Europe is again in the market with beet sugar. In the Middle West farmers are already contracting to sell their beets at \$11 and \$12 a ton, which should mean 10-cent sugar. Meanwhile the Cuban sugar crop is estimated at 4,000,000

tons, which is three times the last crop before the war.

In some measure the late rise resulted from the buying of housewives who were anxious to lay in enough sugar for the season's canning. Such buying will doubtless continue; but the Chicago committee advises all possible moderation and delay. In the face of present conditions the price cannot make any marked advances, and the probability is that if housewives limit their purchases to the actual needs of the moment it will remain stationary or decline.—Monrovia News.

Army Enlistments

Enlistments for the regular army during the month of August numbered some 16,000. The high figure is partly due to the falling off of some industries, but comes largely from a growing appreciation on the part of young men of the country as to the educational advantages offered by the army. And the quality of new army material is more noteworthy than its quantity.

It used to be that most peace-time enlistments were from among the failures. Today youths from the finest families in the country are enlisting, and in most cases the recruit has some definite educational objective. While the army does not offer as high financial returns as industrial jobs, it provides a wider range of experience than most of them. It does "pay while learning," and with the opportunities for specialized education which it includes, it presents unusual attractions for the youth with patience and ambition. That so many high-grade young men recognize these facts argues well for the safety of the country in peace or war.

The first practical application of the three-phase system of power transmission which made interurban railways possible, was in 1894.

Those political organizations that are giving women equal representation on their committees had better be careful. Haven't they learned yet that an equal number of women is a majority?

"My mother's gone to town to pay some bills."
"We have men sent right to the house to collect ours."

It is a safe guess that mother knows more about voting right now than father does about making up a bed.

Mrs. Tight's Sales

Mrs. M. L. Tight says that while she is not as proud of her sales record for August as she was for that of July, yet she placed in escrow considerably over \$75,000 worth of property, as follows:

C. H. Baggett's, 421 West Dryden to George Leatherman of Lancaster.
Durant Bowers' Delco Grocery at 714 East Broadway to Dan Tracy of Colorado Springs.
D. Bowers, 227 North Cedar to Captain M. P. Vestal.
Mrs. S. Thomas, 419 East Harvard to John Madden from Colorado Springs.

E. F. Kulp, 1440 Rock Glen Avenue to H. Kimble of Los Angeles.
L. E. Neeley, 466 Hawthorne to F. Kearne of Olean, N. Y.
W. E. Pelley, 800 Raleigh, to Miss S. Thomas.

J. M. Spear, 1146 East Lexington Drive, to E. H. Florschultz of Portland, Ore.

S. A. Herman, 1116 East Lexington Drive to C. A. Luce of Inglewood.
Mr. Hartley, 120 South Isabel, to A. A. Livingston.

Florentine Barday, 1220 and 1222 South San Fernando Road to Florence Schram of Richmond, Calif.

Alice Cunningham, 1235 East Wilson Avenue, to F. L. Sargeant of Hollywood.

W. H. Hyde, 206 Fairview, to A. Kearne, from Allegheny, Pa.

F. M. Ream, 145 South Pacific Avenue, to Miss S. M. Thomas.

J. A. Marvel, 418 Oak, to Miss F. A. Godfrey of Pasadena.

Look at This!

WASHINGTON, Sept. 11. (United Press).—The American Forestry association today announced that because the nineteenth amendment enfranchising 27,000,000 women voters is now the law of the land:

Five carloads or \$04,000 pounds of paper more than is ordinarily required will have to be used to print ballots.

And registration of the women will require as much more paper.

And the same ladies will use on election day 13,500,000 pencils costing \$675,000, not counting any they may chew.

Topic, "A Great Miracle and its Lessons." Evening praise and preaching service at 7:45. Sermon theme, "Life's School." Meeting for prayer and testimony on Wednesday evening at 7:45. Lesson for study, "Jesus in the Garden of Gethsemane."

TRUSTEES' MEETING

(Continued from Page 1)
The city manager recommending the consideration of the subject of making certain changes in the boundaries of fire district No. 1, to be embodied in the new building ordinance. Referred to the committee of the whole. The city manager presented a communication in regard to Casa Verdugo street lights. The communication stated that by eliminating one of the proposed lights the construction costs can be materially reduced by reason of the fact that three of the lights can be installed on existing pole lines. The total cost for the three lights is estimated at \$193.12. On motion of Trustee Henry it was ordered that the city manager be authorized to put in a bid to the county for installing the lights referred to in his communication.

On motion of Trustee Bartlett the application of Mrs. Alice Anderson, presented to the Board at a previous meeting, to keep a few patients in her home at 1125 East California street, was granted.

The city manager presented a communication in regard to the water supply of the city and the necessity for a sewage system in Verdugo Canyon. It was stated in the communication that the measures taken to protect the purity of the water supply so far appear to have been entirely successful. The communication also called attention to the previous recommendations of the city manager in regard to the purchase of suitable grounds, and providing for housing and caring for the city automobiles and trucks, providing a store room and yards for materials, etc. He recommended that the voters of the city be given a chance to provide for some of these improvements by a bond issue. Referred to the committee of the whole, copies of the communication will be furnished in the meantime to all members of the Board.

A deed was presented to the Board signed by John Todd and Emily Victoria Todd conveying to the city of Glendale for street purposes, lot A of Tract No. 2221, accompanied by a certificate of title to same. On motion of Trustee Stephenson the deed was ordered to be accepted and the city clerk was instructed to take up with the county officials the matter of cancellation of taxes upon the property conveyed and to attend to recording of the deed.

The city manager reported on the bids for automobiles, previously referred to him, recommending the acceptance of the bid of the Ford Agency to supply two automobiles and one truck to the city. On motion of Trustee Henry it was ordered that the recommendation be approved and the bid accepted.

Engineer H. B. Lynch presented a report on the proposed sewer system in Verdugo Canyon to the effect that the only completely satisfactory solution of the matter consists in the disposal of all sewage below the mouth of the canyon through water tight sewers. He also presented a communication in which he recommended that in regard to the equipment of the well recently completed and the installation of the same, that the work be done without the aid of an inspector and that the amount of \$84.00 be deducted from him in the final accounting. Referred to the committee of the whole and the recommendation in regard to deducting the sum mentioned was approved and adopted.

The city attorney having prepared an ordinance repealing ordinance No. 100 (prohibiting pool rooms), Trustee Henry presented the ordinance which was read and ordered laid over for one week.

The city clerk reported that no nominating petitions for members of the charter committee had been filed within the limits required by law for the proposed election of September 28, 1920.

Trustee Stephenson presented an ordinance regulating jitney service which was read and laid over until the next regular meeting.

Trustee Stephenson presented an ordinance regulating the speed of

GLENDALE MISSION

First Lutheran
Rev. G. W. Snyder will deliver the sermon Sunday morning at 11 o'clock. Rev. Snyder is an interesting speaker. Come and hear him. The Bible School begins at 10 a. m., with well organized classes.

electric railway trains at street crossings which was read and laid over. The clerk was instructed to provide all members of the board with copies of the above named ordinances.

The City Attorney reported having filed with the Railroad Commission a complaint as to telephone charges.

The matter of the improvement of Sycamore Canon Road was taken up at this time. J. C. Sherer, a property owner in the district proposed to be assessed for this improvement entered a protest against further proceedings on the following grounds:

1. That the improvements now contemplated differ in essential details from the plan adhered to until recently for the improvement of this thoroughfare, the right of way for which had been paid for by the people of the assessment district and.

2. The proposed plan for the distribution of the cost as between the frontage on the street and the assessment district is entirely at a variance with the basic principle of the law that "Assessments shall be levied in proportion to benefits received."

On motion of Trustee Robinson resolution No. 1123 was adopted adopting plan No. 277, map No. 271, profiles Nos. 732, 736, 737 and 738; and specifications Nos. 31 and 32 in connection with the improvement of portions of Sycamore Canyon Road, Verdugo Road, Lexington Drive, and Broadway in the City of Glendale.

In this connection a license agreement was presented and read signed by the California Willite Road Construction Co. and on motion the same was ordered to be received and to be filed by the clerk. Trustee Robinson moved the adoption of resolution No. 1124, the resolution declaring the intention to improve a portion of Sycamore Canyon Road, Verdugo Road, Lexington Drive and Broadway in the City of Glendale.

Trustee Stephenson moved the adoption of an ordinance presenting ordering the opening and laying out of Patterson avenue in the manner contemplated in ordinance No. 38 of the City of Glendale. Adopted on roll call, all voting "Aye" as ordinance No. 397.

Trustee Bartlett moved the adoption of an ordinance establishing the grade of Dayton Court, Doran street and Arden avenue, and the same was adopted, all voting "Aye" as ordinance No. 398.

Trustee Henry moved the adoption of an ordinance ordering the widening of a certain portion of the all east of Brand Boulevard between Harvard street and Colorado street as contemplated in ordinance No. 33 and the same was adopted, all voting "Aye" as ordinance No. 399.

On motion of Trustee Henry the budget as submitted by the City Manager was ordered to be adopted. Motion of Trustee Stephenson that when the board adjourned they would meet at 2:30 p. m., September 11.
